

# Our Commitment

We dedicate ourselves to the very best customer service you will find among residential and commercial cleaning services anywhere while at the same time doing our part to save the environment and protect your health. Our twofold commitment includes our sincere and equal concern for the health of you, our customer, and to the environment in which we all live.

While this may seem like two different endeavors, we believe the two are so closely intertwined they cannot be separated. By utilizing our environmentally green cleaning techniques while providing our guarantee that we will clean your home or place of business to your complete satisfaction we believe we are living up to our commitment to protect your health and the earth as a whole.

While we are committed to these beliefs we dedicate ourselves to providing exceptional customer service building long term relationships, conducting business with integrity, honesty and respect.

Environmental Responsibility

# Lets Go Green

We are obligated to educate our customers in a way that benefits them beyond the workplace.

If you're reluctant to employ green cleaning products because you're concerned about killing bacteria and germs you needn't be! Going green does not mean you are sacrificing sanitation of your home or buildings. Cleaning chemicals that are toxic and even dangerous are not necessary to achieve clean and sanitary conditions.

We don't leave behind something worse than the dirt we clean away! We firmly believe that if we take care of our air, our bodies and our world, they will take care of us.

When you call Environmentally Healthy Solutions you're doing your part in the effort to protect our environment. How much easier can it get to contribute to the health and well being of not only your family and loved ones but to the earth environment as a whole.
